Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Rejections and/or objections as previously applied

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 2, 5, and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kim (US 2003/0202134).

Kim teaches a semiconductor device comprising (fig. 8 and associated text):
a semiconductor substrate 100;
a gate line 130a crossing over the substrate; and
a protecting pattern 300 covering ends of the gate line.

With respect to claims 5 and 6, a gate line comprises of an oxide pattern and conductive pattern of tungsten is well-known to one of ordinary skill in the art of making semiconductor devices.

With respect to claim 2, the use of silicon nitride or silicon dioxide as protection material is well-known to one of ordinary skill in the art of making semiconductor devices.

Response to Arguments

3. Applicant's arguments filed 09/13/04 have been fully considered but they are not persuasive. See below.

In response to the applicants' arguments in the first four paragraphs under "Claims Rejections- 35 USC 103" on page 4 of the applicants' action dated 09/13/04, it is submitted that element 300 of Kim is a pattern and 300 has an inherent function of protection for underlying elements. See fig. 8 of Kim. Further, it is submitted that a prior art reference is evaluated by what it suggests to one versed in the art, rather than by its specific disclosure. In re Bozek, 163 USPQ 545 (CCPA 1969). Still further, it is submitted that a reference is considered not only

for what it expressly states, but for what it would reasonably have suggested to one of ordinary skill in the art. In re DeLisle, 160 USPQ (CCPA 1969).

In response to the applicants' arguments in the paragraphs on page 5 of the applicants' action dated 09/13/04, it is submitted that Kim clearly teaches the pattern or protection pattern 300 is located at or covers the end portions or ends of the gate line 130a. See [0040], lines 8-9 of Kim.

Allowable Subject Matter

1. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
2. Claims 12 and 13 are allowed.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
